

Workshop 6 – Friday, 10:20 - 11:10

Key/Room	Workshop Description	
E* Rotunda A	Making Every Minute Count with Elementary Games and Reviews <i>Shela Conrad; A Beka Book, Pensacola, FL</i> Students enjoy learning when games and reviews are used in the classroom. You'll receive many ideas on making your minutes count when reviewing.	G* Jefferson
G* Rotunda B	The Influence of a Godly Teacher <i>Dr. Brian Carruthers; Bob Jones University, Greenville, SC</i> Teachers sometimes forget the incredible opportunities for spiritual influence that they have on their students and their parents during the course of the school year. This workshop helps refocus our thinking on what may be "more important" than teaching reading writing, and arithmetic!	H, UE* Madison
E, K* Rotunda C	Developing an Appreciation for Classical Music in Elementary <i>Matt Smith; Valley Baptist Christian School, Edinburg, VA</i> Get helpful suggestions for things that you can do in your elementary classroom to help develop in your students a taste for excellent classical music.	A, G, P, S* Monroe
A, G, P* Rotunda D	Professionalism in Our Profession: Qualities for Improving Quality <i>Pastor Doug Wright; Keystone Baptist Church, Berryville, VA</i> Educational authorities have rightly observed that the professional educator is always learning and growing. Teachers who are not learners will quickly lose their ability to motivate students, and may lose their enthusiasm for teaching. Christian educators are charged with academic and spiritual responsibilities. Both require effort and both require constant attention if we are to remain on the "cutting edge." This session will investigate and challenge you with resources and ideas for maintaining that edge. We will look at the subject from both a theoretical and a practical side. Lord willing, you will leave with a renewed vigor for your ministry in Christian Education.	
A, H, UE* Gallery B-C	Academic Writing, Part 3 – Practical Principles: How Can I Improve Our School's Writing Program? <i>Annmarie Rill; Virginia Baptist College, Fredericksburg, VA</i> Many students enter college unprepared to do a good job on the many writing assignments. What can the Christian school do to improve its students' composition skills?	
H* Giorgio's	The "B" Attitudes of Teaching Junior High, Part 2 <i>Martha Jo Sale; Faith Baptist School, Fredericksburg, VA</i> Teaching junior high age young people is a blessing. I know many of you now think I have lost my mind. If you are going to teach junior high, it is <u>ALL</u> about attitude. Junior high students are a unique breed and need lots of love and understanding. This seminar will cover the basics that are important to remember when teaching junior high.	
		The Ministry of Teaching: A Burdened Servant <i>Keith Scott; Rosedale Baptist School, Baltimore, MD</i> The teacher who teaches because it is his job and the teacher who teaches because it is his ministry are mostly different for one particular reason – their burden. Do we as Christian school teachers have the same burden for the people of our ministry as Christ did for the people of His ministry? This workshop examines teaching as a ministry. We will also look at some of the dangers facing the Christian school teacher.
		Enhancing Science with Demonstrations, Part 2 <i>Karen Pinkard; Faith Baptist School, Fredericksburg, VA</i> Take advantage of the abundant resources that are available for science class. Integrate hands-on work with each topic to ignite excitement and interest in the student.
		Brains out of Balance <i>Dan Zacharias; ODACS Executive Director</i> Is it possible that Autism, Asperger's Syndrome, ADHD, Dyslexia, and other disorders have a common underlying, neurological cause? Is it possible to treat these disorders effectively without medication? This session will examine a fascinating and controversial theory that is worthy of consideration. The material presented will be based on the book <i>Disconnected Kids</i> by Dr. Robert Melillo.

**A-Administrative; C-Early Childhood; E-Elementary; G-General;
H-Secondary; K-Kindergarten; LE-Lower Elementary; P-Pastors;
S-Special Education; UE-Upper Elementary
* Available for CEU credit.**
