## GE (GRADE EQUIVALENT)

This score represents the average performance of students tested in a given month of the school year. (Grade Equivalents are not comparable across subtests.)

## PR/S (NATIONAL PERCENTILE RANK and STANINE)

This score indicates the relative standing of groups in comparison with groups from the same grade in the norm (reference) group who took the test at a comparable time.

PHS: Post High School

The chart at the left represents the average of all subtests at each grade level on the <u>Stanford Achievement Test</u> Series, Tenth Edition (Stanford 10).

AACS students are compared with 250,000 students in the 2002 National Standardization group who were carefully selected to represent all students across the United States.

Stanford 10 subtests include Sounds and Letters, Word Reading, Sentence Reading, Word Study Skills, Reading Vocabulary, Reading Comprehension, Mathematics Problem Solving, Mathematics Procedures, Mathematics (SESAT and TASK levels), Spelling, Language, Study Skills, Science, Social Science, and Listening. All subtests listed were administered at every grade level for which they are available.
