

VIDEOGRAPHY ANNUAL UPDATE 2025-2026

To submit an entry in the ODACS Videography competition, the contestants must post the entry as an unlisted YouTube video. Once the entry has been posted to YouTube, the school must submit a Videography URL form to the ODACS office by e-mail (odacsvideography@gmail.com).

At the same time as the submission of the video entry, the contestants must submit all required paperwork to the ODACS office via e-mail.

The deadline for submitting a video will be Saturday, February 7, 2026. The purpose for early submission is to give judges ample time to organize and examine all files received and to judge all videos remotely prior to the beginning of the regional competitions. If the February 7 deadline for this year creates a problem for your entry, please contact the ODACS office to discuss your situation.

Your Videography URL form needs to be submitted only once to the ODACS office. Because of the unique logistics and the amount of time required for judging the Videography categories, both Regional Competition and State Competition results will be determined from the entries once they have been submitted by the deadline.
